

At a glance | 2026

TIMS Medical is a U.S.-based MedTech company headquartered in Chelmsford, Massachusetts, USA. Established in 2004, the company develops medical imaging and clinical workflow solutions designed for productivity gains and integration with hospital imaging and EMR systems, helping healthcare providers manage procedure data, reporting, and clinical documentation more efficiently. TIMS Medical holds a strong position in Ear-Nose-Throat (ENT), including FEES procedures, with solutions designed to streamline clinical workflows through connectivity, reporting, and documentation. The company also provides medical education through evidence-based research, webinars, and training programs for healthcare professionals.

~55

Established

2004

Founder and President/CEO

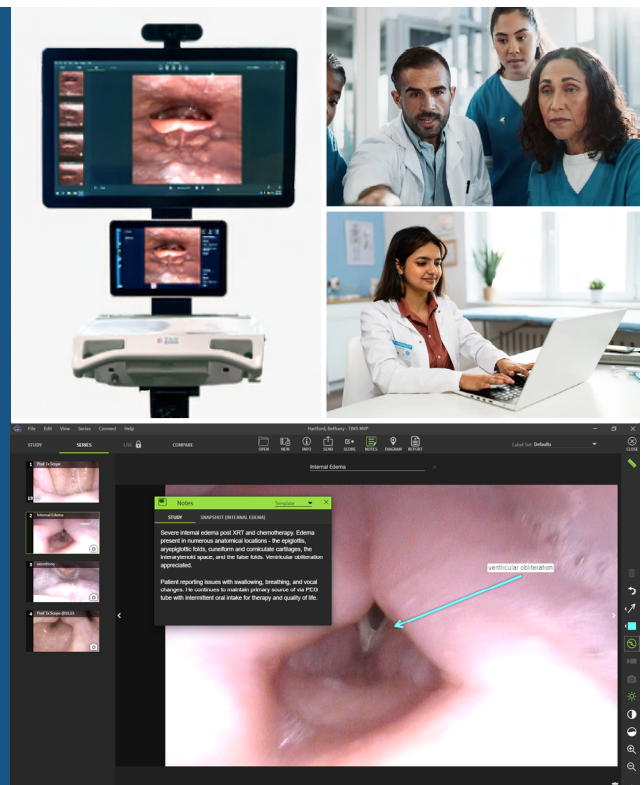

Mark Mariotti

TIMS MVP

TIMS MVP (Medical Video Platform) is TIMS Medical's flagship hospital integration and workflow solution.

It comprises a hardware device installed in ENT procedure rooms together with reporting and documentation software that integrates directly into hospital imaging archives (PACS and VNA systems) and electronic medical record systems (EMR/EHR).

- **Connectivity:** Connects medical imaging devices with hospital IT systems, enabling seamless transfer of procedure images, video, and clinical data.
- **Reporting:** Enables efficient and structured report creation, helping clinicians capture procedure findings.
- **Documentation:** Stores and shares reports and clinical information within hospital systems, making documentation accessible across departments and care teams.
