

TINDERBOX

26TH - 28TH JUNE 2015 • ODENSE • TUSINDÅRSSKOVEN

Tinderbox unveils program for MagicBox, which contains a long list of world famous artists in the EDM genre.

MagicBox is a special area of Tinderbox - a festival within the festival, with a capacity of 8,000 people. It is an area filled with dynamic music and show, a stage in motion with a constantly changing expression, as we know it from other major international EDM festivals.

MagicBox area's decor and ambiance are comparable to those that you see at i.e. Mysteryland in Holland and Tomorrowland in Belgium. The stage and the whole MagicBox area is specifically designed for Tinderbox by the Dutch company Unlimited Productions BV, specialists in the field and they have, among other things, designed productions for several of the world's leading EDM festivals and otherwise work with all the main DJ's in the world.

MagicBox is an area in the beautiful environment around Odense Open-air Pool by Tusindårsskoven, besides lounge areas around the large pool, also will exude party with international DJ's, and a cornucopia of fireworks, sound and light, which has not been seen similar in Denmark before.

MagicBox area is running at full schedule on Friday and Saturday until 1:00 AM after which respectively CALVIN HARRIS and AXWELL & INGROSSO closes the festival on the main stage around 2:30 AM.

MAGICBOX LINE UP:

BROILER (NO)
