

MEMORANDUM OF UNDERSTANDING

between

The Mayo Clinic Platform,

The Capital Region of Denmark

and

The Danish Clinical Quality Program – National Clinical Registries (RKKP)

This Memorandum of Understanding “MoU” sets forth the intentions and focus areas under which The Mayo Clinic Platform, The Capital Region of Denmark and The Danish Clinical Quality Program – National Clinical Registries (RKKP), hereinafter referred to collectively as “Parties”, agree to cooperate on the development of safe and efficient platform concepts for the use of health data for research, development and innovation within prevention, diagnosis and treatment of disease, while ensuring the highest level of protection of patient privacy and security of data.

All parties have agreed as follows:

1. The Parties shall **exchange information** to strengthen the development of secure and private platforms for use of health data in the US and Denmark, as well as partner organizations in other countries.
2. The Parties shall endeavor to inform each other of **relevant activities** (e.g. research projects, PoC’s, US and EU policy development) that can further the development of safe and efficient platform concepts for the use of health data.
3. The Parties shall explore possibilities for future **joint communication** and events, including possible dialogue with relevant policy makers in the US, DK and EU.

4. This MoU is **not a legal contract** and doesn't give rise to any financial obligation to either party.
5. The Parties shall, to the extent possible, **hold regular meetings**, for appraisal of implementation and further development of this MoU.
6. This MoU shall **enter into force** on the date of its signature and shall remain valid until each side gives in advance a six months' written notice for its termination.

This MoU is Signed on 1 November 2023.

On behalf of the
Mayo Clinic Platform

On behalf of the
Capital Region of Denmark

On behalf of the
RKKP
