- **Newly awarded contracts increase soft backlog by more than €50 million**
- **Already announced orders of c.€50 million move from soft to hard backlog**
- **A.R.M.E.D. products are getting increasing traction in many countries**

18 March 2025 – [THEON INTERNATIONAL PLC \(THEON\)](#) announces newly awarded contracts that increase soft backlog by more than €50 million. At the same time, other previously secured orders (soft backlog) worth approximately €50 million move to THEON's hard backlog. The new orders primarily require deliveries in 2025-2026, increasing coverage at the bottom of the range of 2025 guidance to c.90%.

The newly awarded contracts mostly include orders from Northern European countries. Aside from Night Vision Goggles (NVGs), part of the orders relates to the recently launched A.R.M.E.D. ecosystem of products. THEON expects more orders for these products in the near future. At the same time, it is in advanced stages in several tenders worth hundreds of millions. More details are expected to be announced in Q2.

Philippe Mennicken, Business Development Director of THEON, stated: "The anticipated increase in demand, driven by the recent geopolitical environment, is expected to accelerate new orders and the exercise of options at a pace faster than usual. THEON is well-positioned to swiftly deliver both Night Vision and Thermal Imaging products, thanks to its high production capacity and the availability of critical components."

THEON will publish its Annual Report 2024 on 14 April 2025, after the market close. A live webcast, including a Q&A session, is scheduled for 15 April 2025 at 14:00 CET.
