Unless otherwise specified, the sources for the business ranking and market positions are internal.

Forward-looking statements

The 2024 universal registration document includes forward-looking statements, assumptions, and information about SCOR's financial condition, results, business, strategy, plans and objectives, including in relation to SCOR's current or future projects.

These statements are sometimes identified by the use of the future tense or conditional mode, or terms such as "estimate", "believe", "anticipate", "expect", "have the objective", "intend to", "plan", "result in", "should" and other similar expressions.

It should be noted that the achievement of these objectives, forward-looking statements, assumptions and information is dependent on circumstances and facts that may or may not arise in the future.

In particular, it should be noted that the full impact of the economical and geopolitical risks on SCOR's business and results cannot be accurately assessed.

Therefore, any assessments, any assumptions and,

more generally, any figures presented in this universal registration document will necessarily be estimates based on evolving analyses, and encompass a wide range of theoretical hypotheses, which are highly evolutive.

Information regarding risks and uncertainties that may affect SCOR's business are included in the 2024 universal registration document.

In addition, such forward-looking statements, assumptions and information are not "profit forecasts" within the meaning of Article 1 of Commission Delegated Regulation (EU) 2019/980.

SCOR has no intention and does not undertake to complete, update, revise or change these forward-looking statements, assumptions and information, whether as a result of new information, future events or otherwise.
