

AMG CRITICAL MATERIALS N.V. ANNOUNCES NEW GLOBAL HEAD OF INVESTOR RELATIONS

Amsterdam, 9 June 2025 --- AMG Critical Materials N.V. ("AMG", Euronext Amsterdam: "AMG") is pleased to announce that Mr. Thomas Swoboda has been appointed the new global Head of Investor Relations, effective immediately. He is the successor to Ms. Michele Fischer, who has held that position for the last six years and has transitioned to Head of Human Resources on a global level as Executive Vice President.

Thomas brings over 18 years of international capital market experience with him. He joins AMG from Société Générale/Bernstein, where he was Director of Equity Research since 2015. Before that, he was a Senior Equity Analyst at MainFirst Bank/Stifel.

Thomas holds a degree in Business Administration from Mannheim University, where he was a recipient of the Research Award of the Prechel-Stiftung. He is multilingual, with proficiency in German, English and Portuguese (Brazilian).

He will be based at our Frankfurt office, reporting to Dr. Heinz Schimmelbusch, CEO and Chairman of the Management Board. He can be reached directly by email at tswoboda@amg-nv.com, or by phone at +49 176 1000 73 14.

About AMG

AMG's mission is to provide critical materials and related process technologies to advance a less carbon-intensive world. To this end, AMG is focused on the production and development of energy storage materials such as lithium, vanadium, and tantalum. In addition, AMG's products include highly engineered systems to reduce CO₂ in aerospace engines, as well as critical materials addressing CO₂ reduction in a variety of other end use markets.

AMG's Lithium segment spans the lithium value chain, reducing the CO₂ footprint of both suppliers and customers. AMG's Vanadium segment is the world's market leader in recycling vanadium from oil refining residues, spanning the Company's vanadium, titanium, and chrome businesses. AMG's Technologies segment is the established world market leader in advanced metallurgy and provides equipment engineering to the aerospace engine sector globally. It serves as the engineering home for the Company's fast-growing LIVA batteries, NewMOX SAS formed to span the nuclear fuel market, and spans AMG's mineral processing operations in graphite, antimony, and silicon metal.

With approximately 3,600 employees, AMG operates globally with production facilities in Germany, the United Kingdom, France, the United States, China, Mexico, Brazil, India, and Sri Lanka, and has sales and customer service offices in Japan (www.amg-nv.com).
