## **GEVORKYAN in Nuremberg: new projects in the tens of millions of EUR**

**GEVORKYAN, a.s.** presented itself over the past week **as an exhibitor** at two events in Nuremberg, Germany: **Enforce Tac**, a specialized trade fair for defence and security, and **IWA OutdoorClassics**, one of the leading international trade fairs for outdoor, hunting and sport shooting.

*“We are pleased not only with establishing new contacts, but also with the high-quality discussions with existing customers about possible expansions of cooperation and new applications,”* says Dipl.-Ing. Artur Gevorkyan, Chairman of the Board of Directors of GEVORKYAN.

According to the company, **the increased interest** from visitors and partners was also evident **thanks to the expansion of material and manufacturing capabilities. New projects** in the field of **ceramic materials and hard metals** came to the forefront. The meetings resulted in specific requests for price quotations for serial production, as well as follow-up technical consultations. **Preliminary internal estimates** indicate that the **volume of new opportunities** currently under discussion may, with further elaboration, **range between seven and nine tens of millions of EUR.**
