Tarkett Group

Tarkett ranks in the top 1% globally with third consecutive EcoVadis Platinum rating

PARIS-LA DEFENSE (FRANCE), July 9th, 2026

Tarkett, a world leader in innovative and sustainable flooring and sports surface solutions, has been recognized for its sustainability leadership by achieving a Platinum Medal by EcoVadis for the third consecutive year. With a score of 88/100 in 2026, Tarkett ranks among the top 1% of more than 150,000 companies assessed worldwide across 180 countries.

"Achieving a Platinum rating under a methodology further aligned with European Corporate Sustainability Reporting Directive (CSRD) and the double materiality principles, is a meaningful recognition of our progress", says Arnaud Marquis, Tarkett's Chief Sustainability & Safety Officer. "It reflects the commitment of our teams to continuously improve our practices and further integrate sustainability into the way we operate and create value."

Tarkett remains the only multi-product company in the flooring and sports surfaces industry to achieve a Platinum EcoVadis rating. Moreover, Tarkett has been included for the fourth consecutive year in the Financial Times & Statista *Europe's Climate Leaders* ranking, remaining the sole representative of its sector in the ranking.

Tarkett's climate targets, approved by the Science Based Targets initiative (SBTi) in 2023, aim to reduce greenhouse gas emissions across the value chain by 30% by 2030, compared to 2019. Tarkett continues to advance its sustainability strategy through eco-design, increased use of recycled materials, the ramp-up of the ReStart® take-back and recycling program, sustainable purchasing and continuous team development. On circularity, Tarkett has set its own target to reach 30% recycled content in its products by 2030, up from 10% in 2018.

Earlier this year, Tarkett also achieved a CDP Climate A score for the second consecutive year, placing the Group among the world's leading companies for climate performance (top 4% out of 20,000 evaluated companies).

About Tarkett

With a history of more than 140 years, Tarkett is a worldwide leader in innovative and sustainable flooring and sports surface solutions, generating net sales of € 3.3 billion in 2025.
