Announcement no. 34/2026

11 November 2026

Ferry – freight: In October 2026, total volumes of 3.7m lane metres were 1.5% above 2025.

North Sea volumes were above 2025 driven by higher Continent-UK volumes. Mediterranean volumes were above 2025 as ferry market volumes in general were increased by longer border transit times for road transport due to border crossing repair works in Türkiye.

Channel volumes were below 2025 which was mainly a result of a decrease in total ferry market volumes. Baltic Sea volumes were below 2025. Strait of Gibraltar volumes were above 2025 driven by an underlying increase and additional volumes following the completion of a route acquisition in early October 2026.

For the last twelve months, the total transported freight lane metres increased 0.7% to 41.8m from 41.5m in 2025-24 and was on level adjusted for route changes.

Ferry – passenger: In October 2026, the number of passengers decreased 0.4% to 330k compared to 2025 as higher volumes in Channel and Baltic Sea were offset by lower Strait of Gibraltar volumes.

For the last twelve months, the total number of passengers decreased 8.3% to 4.9m compared to 5.3m in 2025-24. The decrease was 4.9% adjusted for route changes.

DFDS ferry volumes

	October				Last-12-months			
Freight	2024	2025	2026	Change	2024	2025	2026	Change
Lane metres, '000	3,770	3,637	3,691	1.5%	41,022	41,512	41,818	0.7%
Passenger	2024	2025	2026	Change	2024	2025	2026	Change
Passengers, '000	458	331	330	-0.4%	6,523	5,350	4,903	-8.3%

DFDS reports monthly ferry volumes for freight and passengers to provide insight into the development of volume trends in our European route network enabling trade and travel in and around Europe. The November 2026 volume report is scheduled to be published on 11 December 2026 at around 10.00am CET.
