

## **Multinational technology company specializing in GPS and sport-specific devices to buy R/D equipment from FOM Technologies.**

11.3.2025 06:30:00 CET | FOM Technologies | Investor News

Investor news no. 48 – 2025 | Copenhagen, the 11th of March 2025

**FOM Technologies receives order for laboratory machine from multinational technology company specializing in GPS and sport-specific devices. FOM slot-die coating equipment plays a vital role in new material research across various fields, now also to include consumer electronics and electronic wearables. FOM Technologies is proud to contribute our expertise to a renowned company.**

### **Global leader in lifestyle accessories to integrate solar innovation with FOM equipment.**

A renowned global player in high-end lifestyle accessories has embarked on a transformative R&D journey with FOM Technologies' slot-die coating system, exploring the integration of solar cells into wearables. This initiative is set to leverage the inherent benefits of lightweight design, cost-effective production, and high efficiency to drive renewable energy solutions in the electronics space.

FOM Technologies is proud to provide equipment for forward-thinking projects, providing advanced machinery that empowers breakthrough research in sustainable, integrated solar technology for next-generation accessories.

The company wishes to remain anonymous.

Michael Stadi, CEO at FOM Technologies comments: *"We are pleased to see that our equipment and technology are gaining recognition across diverse industry sectors. Our sales team is in communication with academic as well as private companies that are interested in innovative technologies within material science, to create innovation, upscaling of production time and to minimize waste of raw materials."*

This investor news will not change the 2025 financial guidance for total income and EBITDA.
