

## **FOM Technologies announces the appointment of Grzegorz Potoczny as its new Chief Technology Officer.**

8.9.2025 06:30:00 CEST | FOM Technologies | Investor News

Investor news no. 56 – 2025 | Copenhagen, the 8th of September 2025

**We are proud to announce that Grzegorz Potoczny has been promoted to Chief Technology Officer (CTO) at FOM Technologies, effective September 1st, 2025.**

Since joining FOM, Grzegorz has demonstrated deep scientific understanding, engineering execution, and strategic project leadership. His ability to bridge the fields of slot-die coating science, machine design optimization, and customer project management has already made a significant impact across our organization.

Grzegorz holds an M.Sc./Eng. in Chemistry and a PhD in Materials Science, and brings with him a strong international perspective, having worked across both Latin America and Europe in the commercialization of materials science technologies.

In his new role, Grzegorz will lead both our Custom Projects group and the Science & Learning department, with direct reports from both teams. His leadership will ensure that customer-specific solutions are developed with technical precision and scientific diligence. Additionally, Grzegorz will work closely with our Technical & Innovation and Sales teams to establish a clear and structured workflow, from defining custom specifications to executing complex R&D projects.

We look forward to the continued value he will bring to FOM's mission of enabling material science of the future.
