ABOUT FOM TECHNOLOGIES:

FOM Technologies A/S is providing premium Slot Die equipment for advanced material researchers at leading universities, research institutions and corporate laboratories around the world. The company was founded as a spin-out from DTU (Danish Technical University) in 2012, to support a small niche market of organic photovoltaics (OPV) research with its highly precise and scalable thin-film production platform. The company has since its founding grown, with its 2020 market presence extending well beyond OPV into perovskite photovoltaics, advanced batteries, supercapacitors, touch-sensitive surfaces, microfluidic medical analysis, drug delivery and more. With 100% export to customers in over 20 countries FOM Technologies A/S is a true "born global" SME with worldwide impact based in the heart of Copenhagen, Denmark. FOM Technologies A/S with ticker symbol "**FOM**" is listed on Nasdaq First North Growth Market Denmark. For more information, please visit: www.fomtechnologies.com
