ABOUT FOM TECHNOLOGIES

FOM Technologies A/S provides premium Slot Die equipment for advanced material researchers at leading universities, research institutions and corporate laboratories around the world. The company was founded as a spinout from DTU (Danish Technical University) in 2012, to support a niche market of organic photovoltaics (OPV) research with its highly precise and scalable thin film production platform. The company has grown since its founding, with its 2020 market presence extending well beyond OPV into perovskite photovoltaics, advanced batteries, supercapacitors, touch-sensitive surfaces, microfluidic medical analysis, drug delivery and more. With 100% export to customers in over 20 countries FOM Technologies A/S is a true “born global” SME with worldwide impact based in the heart of Copenhagen, Denmark.

FOM Technologies A/S with ticker code “**FOM**” is listed on Nasdaq First North Growth Market Denmark. For more information, please visit: www.fomtechnologies.com
