

INVITATION TO SPENN'S VIRTUAL INVESTOR EVENT ON THE 8TH NOVEMBER

Dear Valued SPENN Investors,

We are pleased to invite investors to a virtual business update on SPENN Technology on Wednesday, November 8, 2023.

SPENN would like to take this opportunity to present the many exciting initiatives and activities that have recently been carried out and what we are working on, what results we have already achieved and what we expect will happen in the future.

We experience great interest from the market, customers and investors, which naturally happens as a result of the promising development and growth that SPENN is going through.

We look forward to providing an overall overview of SPENN's performance, recent developments, relevant business improvements and a strategic outlook.

During the event, we will offer in-depth presentations on our operational achievements and future initiatives. It will also serve as an interactive forum where you, as a key part of our investment community, can engage with our leadership team.

To make this as efficient as possible we kindly ask everyone that has question to send them prior to the meeting on the following email:
patrycja@spenn.com

To accommodate our global investor base, we are hosting two separate sessions: one conducted in Norwegian and another in English. This ensures that you can engage in the dialogue in the language you are most comfortable with.

Please find below the details for the virtual event:

NORWEGIAN SESSION:

Date: 8th November 2023

Time: 11:30 AM

ENGLISH SESSION:

Date: 8th November 2023

Time: 12:30 PM

Your participation is important to us and we are committed to ensuring that all investors have the opportunity to connect directly with our management team.

You will receive a link to the meeting approximately 1 hour prior to the event. No additional installations are necessary; the sole requirement is a web browser.

Thank you for your continued support and trust in SPENN. We look forward to your attendance and valuable contributions at the event.
