

Monsenso actively searches for strategic partnerships in Europe

23.9.2024 14:42:56 CEST | Monsenso | Investor News

Copenhagen, 2024.09.23

We are excited to announce that Monsenso is now actively searching for strategic partnerships across Europe. This effort marks a pivotal move in our broader growth strategy, aiming at accelerating the expansion of our digital health platform.

As we continue to lead innovation and provide cutting-edge healthcare solutions, forging new partnerships will be essential in unlocking growth opportunities and enhancing the scalability of our platform across European markets. We are committed to collaborating with like-minded organizations to drive the future of digital health, improve patient outcomes, and expand access to high-quality healthcare solutions.

We look forward to building strong, collaborative relationships as we pursue this ambitious plan.

About Monsenso

Monsenso is an innovative technology company offering a digital health solution used for decentralised trials, remote patient monitoring and treatment support. Our mission is to contribute to improved health for more people at lower costs by supporting treatment digitally and leveraging patient-reported outcomes data. Our solution helps optimise the treatment and gives a detailed overview of an individual's health through the collection of outcome, adherence and behavioral data. It connects individuals, carers and health care providers to enable personalised treatment, remote care and early intervention. We collaborate with health and social care, pharmaceuticals and leading researcher worldwide in our endeavors to deliver solutions that fit into the lives of patients and health care professionals.
