

Monsenso A/S issues warrants to management and employees

23.4.2021 15:49:20 CEST | Monsenso | Company Announcement

Company announcement no. 10-2021

Copenhagen, 2021.04.23

The Board of Directors of Monsenso A/S hereby announces the decision to issue warrants with the aim of ensuring that shareholders, management, and employees have uniform interests and that everyone makes a special effort to create value in the company and maintain the company's management and employees.

The warrant program includes employees, hereunder management, who are in a non-terminated position and who were employed on January 1st, 2021.

The vesting period for the warrants is 36 months from May 1st, 2021 to April 30th, 2024, but only if the recipient is still employed by the company. Unexercised warrants expire on August 31st, 2028. DKK 440,000 warrants have been granted, giving the right to subscribe for a nominal DKK 44,000 shares in the company.

The Board of Directors has set the exercise price at DKK 5.86 per warrant, which is less than the market price and in accordance with § 5.3 of the company's articles of association. The value of each warrant can be calculated at DKK 8.40 based on an interest rate of 2% and a volatility of the company's shares of 93% (using the Black-Scholes formula).

The warrant holder shall not pay any compensation for the granting of the warrants. The vested warrants can be exercised twice a year after the publication of the company's annual and half-yearly report in an exercise window of pt. 2 weeks.

Monsenso's share capital amounts to a nominal value of DKK 1,339,197.50 divided into 13,391,975 shares of DKK 0.10.

About Monsenso

Monsenso is an innovative technology company offering a digital health solution for mental health and behavioral disorders. Our mission is to help provide better mental health to more people at lower costs. Our solution helps optimise the treatment of mental disorders and gives a detailed overview of an individual's mental health through the collection of outcome, adherence and behavioural data. It connects individuals, carers and health care providers to enable personalised treatment, remote care and early intervention. Based on continuous research and development, our team is committed to developing solutions that fit seamlessly into the lives of individuals, increase their quality of life and improve the efficacy of mental health treatment.
