

Dataprocess acquires Boelplan A/S

2.4.2025 11:49:15 CEST | Dataprocess Group A/S | Investor News

Investor news no. 13/2025: Dataprocess acquires Boelplan A/S

Dataprocess will take over the company Boelplan A/S from 2 April 2025. The acquisition was made with its own funds.

Since 2002, Boelplan A/S has provided analyses and forecasts to Danish municipalities for use in population forecasts and capacity planning in the areas of schools and daycare, among others. The company currently has 17 Danish and six German municipalities as customers.

The acquisition of Boelplan is in line with the announcement in investor news no. 8/2025, which stated that Dataprocess will investigate the possibilities for strategic partnerships and acquisitions, with the aim of being able to offer customers new and even stronger products.

Boelplan A/S has so far been run by Søren Boelskifte, who will be employed by Dataprocess in connection with the acquisition.

Former owner of Boelplan A/S, Søren Boelskifte says:

"I am happy that my company will have the opportunity to continue to live at Dataprocess. At the same time, I would like to thank my customers for good and trusting cooperation - several of them for many years. I am confident that Dataprocess will be able to integrate and develop Boelplan's solutions, so that customers get even more value for their money".

CEO of Dataprocess Group A/S. Michael Binderup states:

"We are confident that with the acquisition of Boelplan A/S we will gain valuable skills and tools that will strengthen our solutions and consulting within demographic development, capacity planning and financial management in municipalities. We look forward to welcoming the two Boelplan employees to Dataprocess and to entering into dialogue with customers about the continued operation and further development of Boelplan's solutions".

The acquisition boosts revenue and ARR in Dataprocess and also means that Dataprocess is now in the German market, which opens up significant growth opportunities in the long term.

The deal also marks Dataprocess' first acquisition, putting action behind the words "profitable growth for its own money".

The acquisition does not give rise to a change in expectations for the year, as guided in connection with our upward adjustment of guidance in company announcement no. 1/2025.
