

Change of CFO provides an opportunity to further prepare Dataprocess for future growth.

6.6.2025 16:04:29 CEST | Dataprocess Group A/S | Company Announcement

Company announcement no. 6/2025: Change of CFO provides an opportunity to further prepare Dataprocess for future growth.

CFO at Dataprocess, Kenneth Nielsen, is resigning from his position for personal reasons at the end of August this year.

CEO, Michael Binderup states:

"I would like to thank Kenneth very much for his efforts at Dataprocess. Kenneth came to the company as a former auditor for Dataprocess with a great knowledge of our business and has contributed in an engaged and skilled manner to the development that Dataprocess has undergone in recent years. I am very pleased that Kenneth has promised to help us well until we have recruited a replacement. This is a testament to his great loyalty and commitment to Dataprocess. The CFO role has so far been held by Kenneth Nielsen on a part-time basis. To further gear Dataprocess for future growth, we are using this change to strengthen the finance front by hiring a new CFO on a full-time basis. We will begin the recruitment process as soon as possible."

Dataprocess Group A/S has earlier this year adjusted its strategy with a focus on strategic partnerships, acquisition opportunities, and new markets. Most recently, the company has issued guidance for the financial year 2025/26 under the heading 'Investment in Future Growth', where it is stated that resources will be allocated to acquire more customers in Germany.
