

Dataprocés Group A/S sets goals for the growth ambition towards 2030

15.10.2025 17:15:00 CEST | Dataprocés Group A/S | Company Announcement

Company announcement no. 19/2025: The Board of Directors wants to reach a turnover of DKK 200 million.

Contains inside information

In investor news no. 8/2025, it was announced that the Board of Directors of Dataprocés Group A/S had discussed the next development phase for Dataprocés and that the strategy for the coming years had been adjusted with a focus on partnerships, acquisitions and new markets.

Since then, Boelplan A/S has been acquired and Dataprocés is now represented on the German market.

On 15 October 2025, the Board of Directors discussed the specific ambitions for the growth targets for the coming years and formulated the following goals:

- Revenue of DKK 200 million in 2030.

Growth must come through:

- A doubling of revenue in Denmark, primarily through organic growth
- Development and marketing of new products that meet universal needs and that are scalable, also outside the country's borders
- Acquisitive growth through 1-2 acquisitions per year

Dataprocés is a profitable business and can largely finance its own growth. However, the Board of Directors is open to the injection of new capital to support the acquisitive growth and export ambitions.

CEO, Michael Binderup says:

"The Board of Directors has now set a specific goal for the ambitions towards 2030. In the management, we look forward to exciting times for our company and we are full of faith that with our specialist knowledge and unique solutions, we can realize the board's ambition for 2030".
