BankInvest is a Danish asset manager and provider of mutual funds, investment funds and private equity funds with total assets under management and administration of DKK 187.6 billion as of 30 June 2025. The owners of the parent company BI Holding A/S consist of 39 primarily Danish banks.

CEO of Nordic Data Group ApS, Morten Lindblad, says: "I think it is a healthy sign that institutional investors such as BankInvest want to buy into the company, so I am very happy to contribute to that, as it can also be reconciled with the fact that I keep the majority of my shareholding in Dataprocés. I look forward to continuing to follow the development of the company and am proud of the trust that Dataprocés is met with."

CEO Michael Binderup from Dataprocés says: "We are very pleased that a recognized player like BankInvest finds Dataprocés attractive as an investment opportunity and look forward to working with the company."
