

## Larger municipality on Zealand buys Data Analysis

2.12.2025 09:07:47 CET | Dataprocés Group A/S | Investor News

Investor News No. 56/2025: Dataprocés has entered a contract for Data Analysis

The contract has been entered into with a larger municipality on Zealand, on collaboration on a data analysis.

Dataprocés' data analyses are targeted at the municipalities' need to ensure a solid and accurate data basis. The analyses combine data from relevant professional systems, financial systems and other data sources to create a comprehensive and quality-assured overview.

Using advanced data methods, we identify errors, missing registrations, discrepancies or settlements that do not match the applicable regulatory framework. This means that the municipalities can both ensure that they receive correct and rightful revenues – and at the same time avoid unnecessary expenses.

### General information about contract announcements as investor news (Updated policy 2025):

All publicly announced contracts are within Dataprocés' strategic focus areas and are not considered to change the announced financial guidance. Changes in guidance are only made in the event of total and significant changes in the underlying business.

As MARS, MARC, KØS and KommuneProfil are central to Dataprocés' SaaS strategy, all sales of software solutions are announced – both to new municipalities and by expansion to existing customers.

In addition, the following are announced:

- Data analysis tasks with an expected fee of more than DKK 250,000.
- All international sales, regardless of contract value

In investor announcements, municipalities are named according to size to ensure uniform communication:

- The 50 smallest municipalities → municipalities
- The 38 middle → larger municipalities
- The 10 largest → top-10 municipalities
