Larger municipality in Jutland buys Data Analysis

12.3.2026 09:11:43 CET | Dataproces Group A/S | Investor News

Investor News No. 11/2026: Dataproces has entered a contract for Data Analysis

The contract has been entered into with a larger municipality in Jutland, on collaboration on a data analysis.

Dataproces' data analyses are targeted at the municipalities' need to ensure a solid and accurate data basis. The analyses combine data from relevant professional systems, financial systems and other data sources to create a comprehensive and quality-assured overview.

Using advanced data methods, we identify errors, missing registrations, discrepancies or settlements that do not match the applicable regulatory framework. This means that the municipalities can both ensure that they receive correct and rightful revenues – and at the same time avoid unnecessary expenses.

General Information on Contract Announcements as Investor News (Updated Policy 2025)

All publicly announced contracts fall within Dataproces' strategic focus areas and are not considered to impact the announced financial guidance. Changes to guidance are only made in the event of total and significant changes in the underlying business.

As MARS, MARC, KØS, and KommuneProfil are central to Dataproces' SaaS strategy, all sales of software solutions are announced—both sales to new municipalities and expansions with existing customers.

In addition, the following are announced:

- Data analysis assignments with an expected fee exceeding DKK 250,000

- All international sales, regardless of contract value

In investor announcements, municipalities are categorized by size to ensure uniform communication:

- The 50 smallest municipalities → municipalities

- The 38 medium-sized municipalities → larger municipalities

- The 10 largest municipalities → top-10 municipalities
