Investor News No. 13/2026: Municipality on Funen has purchased an expansion of Dataprocés' MARC platform

Dataprocés has entered into a contract with a municipality on Funen for an expansion of its SaaS solution, MARC Helbredstillæg.

MARC Helbredstillæg automates and supports the work involved in processing the health allowance. The solution automates the majority of invoice processing for both electronic and physical invoices, benefiting citizens, employees, and the municipality as a whole.

### General information about contract announcements as investor news (Updated policy 2025):

All publicly announced contracts are within Dataprocés' strategic focus areas and are not considered to change the announced financial guidance. Changes in guidance are only made in the event of total and significant changes in the underlying business.

As MARS, MARC, KØS and KommuneProfil are central to Dataprocés' SaaS strategy, all sales of software solutions are announced - both to new municipalities and by expansion to existing customers.

In addition, the following are announced:

- Data analysis tasks with an expected fee of more than DKK 250,000.
- All international sales, regardless of contract value

In investor announcements, municipalities are named according to size to ensure uniform communication:

- The 50 smallest municipalities → municipalities
- The 38 middle → larger municipalities
- The 10 largest → top-10 municipalities
