Investor news no. 19/2026: Municipality on Zealand has purchased an expansion of Dataproces' MARC platform

Dataproces has entered into a contract with a municipality on Zealand for an expansion of its SaaS solution MARC Fleksløn.

MARC Fleksløn (Flex Job Subsidies) is a robotic solution, that automates the monthly calculations of the subsidies and makes the recalculations more efficient. The solution runs with integration to Kommunernes Ydelsessystem, KY. By using MARC Fleksløn, 50-70% of the municipality's monthly calculations of subsidies are automated.

General information about contract announcements as investor news (Updated policy 2025):

All publicly announced contracts are within Dataproces' strategic focus areas and are not considered to change the announced financial guidance. Changes in guidance are only made in the event of total and significant changes in the underlying business.

As MARS, MARC, KØS and KommuneProfil are central to Dataproces' SaaS strategy, all sales of software solutions are announced – both to new municipalities and by expansion to existing customers.

In addition, the following are announced:

- Data analysis tasks with an expected fee of more than DKK 250,000.

- All international sales, regardless of contract value

In investor announcements, municipalities are named according to size to ensure uniform communication:

- The 50 smallest municipalities → municipalities

- The 38 middle → larger municipalities

- The 10 largest → top-10 municipalities
