

Dataprocés named as elite supplier to the public sector

3.8.2021 13:25:39 CEST | Dataprocés Group A/S | Investor News

In 2020, Dataprocés has been among the largest suppliers to the public sector, and has therefore been named an elite supplier.

The certification as an elite supplier is given to those who have been among the 1% largest suppliers to the public sector in 2020. According to Merzell Denmark, which awards the certification, it is "an achievement that deserves all honor and respect". We at Dataprocés are proud of that!

"I am really happy to be able to call us a certified elite supplier to the public sector and I think, that it is an achievement that we can be really proud of," says CEO Kjartan Jensen and elaborates.

"For several years, we have focused on being a strong sparring partner for the Danish municipalities, when it comes to both data analysis and IT solutions. It requires dedicated work from everyone in Dataprocés to ensure a close and trusting collaboration with the municipalities."

"Therefore, I would like to thank all the employees who make a huge effort every day so that we as a company can succeed in our mission to create value for the customers through IT and data. I would also like to thank the municipalities for the good cooperation, which only gets stronger year by year", says Kjartan Jensen.

The appointment is based on the amounts invoiced to the public authorities (municipalities, regions, state, universities and official utilities) throughout Denmark. Every year, 3.000 elite suppliers are named TOP-1%.

The recognition also comes with an elite supplier badge.
