Half of Denmark's municipalities use Dataproces' SaaS solutions

15.2.2022 14:45:41 CET | Dataproces Group A/S | Investor News

Investor news no. 7/2022: Dataproces has per. the 15th of February entered into yet another agreement on our SaaS solution MARC Fleksløn.

The agreement on MARC Fleksløn has been entered into with a larger municipality in Zealand and is now the 31st municipality to purchase our MARC Fleksløn solution. This is the second contract on the SaaS solution in February - on the same day.

With this contract, half of the country's municipalities now use one or more of Dataproces' SaaS solutions.

CEO Kjartan Jensen says: "10 years ago, I did not expect to say that half of Denmark's municipalities use one or more digital solutions from Dataproces every single day. I am so proud of how far we have come, and that there is yet a churn of 0 on our SaaS solutions."

MARC Fleksløn (Flex Job Subsidies) is a robotic solution, that automates the monthly calculations of the subsidies and makes the recalculations more efficient. The solution runs with integration to Kommunernes Ydelsessystem, KY. By using MARC Fleksløn, 50-70% of the municipality's monthly calculations of subsidies are automated.

Generally about contract announcements as investor news:

The contracts are in accordance with Dataproces' strategic focus and does not change the announced guidance.

In all announcements Dataproces distinguishes between three municipality size categories; the 50 smallest municipalities are called municipalities, the 38 middle ones are called larger municipalities and the 10 largest are called top-10 municipalities.

Dataproces announce all agreements on data analyzes with a total estimated value higher than 250,000 DKK.

The SaaS platforms MARS, Min Sag and MARC Fleksløn are central to the company strategy and will be announced each time an agreement has been entered into.
