Jutlandic municipality enters into agreement on data analysis

7.4.2022 16:38:06 CEST | Dataproces Group A/S | Investor News

Investor news no. 16/2022: Dataproces has per. the 7th of April entered into an agreement on data analysis.

The agreement has been entered into with a Jutlandic municipality, who has entered into a collaboration on data analyzes. Last year alone, Dataproces' customers took home an average of DKK 1.6 million in additional revenue by reviewing the municipality's data.

Kjartan Jensen, CEO states: "I'm thrilled to see our sales-pipeline on data analyzes has been strenghtened throughout the spring, and that it is materializing in new contracts. This gives me confidence in the future - and also strengthens our starting point for the next financial year."

Dataproces' data analyzes ensure the municipalities a correct and legitimate income and validate the municipality's financial data foundation.

Generally about contract announcements as investor news:

The contracts are in accordance with Dataproces' strategic focus and does not change the announced guidance.

In all announcements Dataproces distinguishes between three municipality size categories; the 50 smallest municipalities are called municipalities, the 38 middle ones are called larger municipalities and the 10 largest are called top-10 municipalities.

Dataproces announce all agreements on data analyzes with a total estimated value higher than 250,000 DKK.

The SaaS platforms MARS, Min Sag and MARC Fleksløn are central to the company strategy and will be announced each time an agreement has been entered into.
