

Nearly half of Zealand uses MARC Fleksløn

6.10.2022 11:19:35 CEST | Dataprocés Group A/S | Investor News

Investor news no. 34/2022: Dataprocés has per. the 6th of October entered into an agreement on our SaaS solution MARC Fleksløn.

The agreement on MARC Fleksløn has been entered into with a municipality on Zealand and is now the 41st municipality in all of Denmark, to automate their calculations of subsidies through our SaaS-solution MARC Fleksløn. Nearly half of the Zealandic municipalities use MARC Fleksløn to automate.

With this agreement 60 different municipalities have bought one or more of our SaaS-solutions.

MARC Fleksløn (Flex Job Subsidies) is a robotic solution, that automates the monthly calculations of the subsidies and makes the recalculations more efficient. The solution runs with integration to Kommunernes Ydelsessystem, KY. By using MARC Fleksløn, 50-70% of the municipality's monthly calculations of subsidies are automated.

General information about agreement announcements as investor news:

All announced agreements are in accordance with Dataprocés' strategic focus and do not change the announced guidance.

Dataprocés announces a total estimated value of new data analysis agreements on monthly basis.

As the SaaS platforms MARS, Min Sag and MARC Fleksløn are central to the guided company strategy, each time a agreement is entered into, it is announced.

Dataprocés distinguishes in the announcement of SaaS agreements between 3 municipality size categories; the 50 smallest municipalities are called municipalities, the 38 middle ones are called larger municipalities and the 10 largest are called top-10 municipalities.
