

Dataprocés sold data analyzes for the current financial year at an estimated DKK 5,5- 6,1 million

1.12.2022 11:47:34 CET | Dataprocés Group A/S | Investor News

Investor news no. 36/2022: Total revenue estimate of sales of Data Analyzes entered into in current financial year 2022/23

In order to be more transparent in terms of communication of agreements for data analysis, we will sum up an overall revenue estimate in the current financial year 2022/23. The agreements do not change the announced guidance.

In current financial year, agreements have been entered into with an estimated value of between DKK 5,5- 6,1 million.

General information about agreement announcements as investor news:

All announced agreements are in accordance with Dataprocés' strategic focus and do not change the announced guidance.

Dataprocés announces a total estimated value of new data analysis agreements on monthly basis.

As the SaaS platforms MARS, Min Sag and MARC Fleksløn are central to the guided company strategy, each time a agreement is entered into, it is announced.

Dataprocés distinguishes in the announcement of SaaS agreements between 3 municipality size categories; the 50 smallest municipalities are called municipalities, the 38 middle ones are called larger municipalities and the 10 largest are called top-10 municipalities.
