

23 municipalities have bought Dataprocés' MARS platform

2.12.2022 08:48:04 CET | Dataprocés Group A/S | Investor News

Investor news no. 38/2022: Dataprocés has per the 2nd of December entered into an agreement with a Jutlandic municipality on our SaaS solution MARS.

The agreement has been signed with a municipality in Jutland on MARS. This is the 23rd municipality to purchase our platform.

By using MARS, the municipality gets a platform which contributes to creating an overview of all municipal financial payments and refunds while the platform streamlines digital administration and contributes to a correct foundation of data.

General information about agreement announcements as investor news:

All announced agreements are in accordance with Dataprocés' strategic focus and do not change the announced guidance.

Dataprocés announces a total estimated value of new data analysis agreements on monthly basis.

As the SaaS platforms MARS, Min Sag and MARC Fleksløn are central to the guided company strategy, each time a agreement is entered into, it is announced.

Dataprocés distinguishes in the announcement of SaaS agreements between 3 municipality size categories; the 50 smallest municipalities are called municipalities, the 38 middle ones are called larger municipalities and the 10 largest are called top-10 municipalities.
