40 municipalities have bought Dataproces' KØS platform

21.2.2024 15:13:11 CET | Dataproces Group A/S | Investor News

Investor news no. 7/2024: Dataproces has on February 21st entered into an agreement on our SaaS solution KØS

The contract for KØS has been entered into with a municipality in Jutland and is now the 40th municipalities using our solution to assist with overall financial management.

KØS is a platform that helps municipalities with overall financial management. The platform contains three modules, including: KØS: Udvikling i finansieringsgrundlaget (Development in the funding base), KØS: Statsgaranti eller selvbudgettering? (State guarantee or self-budgeting?) and KØS: BefolkningsBlik (PopulationView). By using one or more modules on the KØS platform, the country's municipalities gain in-depth insight into the development of their own revenues and expenses, thereby increasing insight into their own economy.

General information about agreement announcements as investor news:

All announced agreements are in accordance with Dataproces' strategic focus and do not change the announced guidance.

Dataproces announces a total estimated value of new data analysis agreements on monthly basis.

As the SaaS platforms MARS, REVIEW, MARC and KØS are central to the guided company strategy, each time a agreement is entered into, it is announced.

Dataproces distinguishes in the announcement of SaaS agreements between 3 municipality size categories; the 50 smallest municipalities are called municipalities, the 38 middle ones are called larger municipalities and the 10 largest are called top-10 municipalities.
