October 22, 2020

Management has chosen to disclose full-year figures for 2019 as comparatives regarding the profit and loss account as well as the cash flow statement because the expenditures and commercial activity in Audientes was limited in the same period last year and as such, detailed information for neither Q3 nor the 9 months ended 30 September 2019, are considered to contribute as reasonable comparatives. Numbers within parentheses refer to the full preceding year, 2019.

Management Review

Audientes continues to execute on the business objectives necessary for a successful launch of our self-fitting hearing aid in medio 2021. Product development, go-to-market planning and the recruitment of key personnel to pivotal positions are proceeding as outlined in our Company Description published on 31 August 2020. We have met our product development targets, both in terms of software and hardware enhancements, but also in terms of product design and user experience.

Key components of our launch strategy are commercial partnerships with regional distributors and retailers. As part of this strategy, we have signed a Letter of Intent (LOI) extension with an Indian retail partner with whom we have been working

with for end-user testing for several years as part of a project co-funded by the Danish Market Development Fund (Markedsmodningsfonden).

Additionally, this quarter we began building the organization that will drive the marketing, sales and delivery of our products to market, as well as establishing our presence in our target market, India. Audientes is also laying the foundation for online sales of our hearing aid via our website and e-tailers like Amazon, Flipkart and [Alibaba.com](https://www.alibaba.com).

CEO Steen Thygesen, Audientes: *"Following our successful IPO on September 18th we have made big strides in our product development and being able to commence the final market testing in Q4. With our extended organization, we are well on track to enter the market medio 2021 with initial product availability in India and online."*
