## **BactiQuant modtager første ordre fra ny amerikansk kunde og får accepteret en publikation til fagkonference i USA indenfor Olie & Gas segmentet.**

2.9.2024 10:36:21 CEST | BactiQuant A/S | Investor Nyheder

Det glæder BactiQuant at meddele, at vi har modtaget første ordre fra ny amerikansk kunde i Olie & Gas segmentet, og udover det publicerer nye data sammen med verdens største Olie & Gas teknologivirksomhed, SLB, på stor fagmesse i USA. Fagmessen AMPP - SYMP-ANNUAL-2025 som afholdes i Nashville i foråret 2025 har deltagelse af mere end 6000 eksperter indenfor korrosion- og materialebeskyttelse. Publikationen: "Oil and Gas Field Installation and Testing of an Automated, Online Bacteria Population Measurement Device" rapporterer data fra et stort vellykket POC projekt i North Dakota - gennemført i samarbejde med Dr. James Fajt, fra SLB.

### **Om BactiQuant A/S**

BactiQuant has developed a technology that will revolutionize the monitoring of bacterial contamination levels in water and ensure optimum usage and handling of water around the world to the benefit of our customers and the sustainability of our planet. To show our environmental commitment, we have aligned our business with four of the UN's Sustainable Development Goals. We believe that BactiQuant will be the world leader within mobile and online surveillance of bacterial contamination levels, and we are already well on our way. Headquartered in Denmark and operating across five continents, our customers come from a wide range of industries such as public water utility companies, industries needing water cooling or requiring wastewater treatment, and aquaculture.
