

BactiQuant

Trading statement for Q1 2024 (1. januar til 31. marts 2024)

10.4.2024 17:01:30 CEST | BactiQuant A/S | Periodeoplysning

BactiQuants omsætning for 1. kvartal er, når der bortses fra salg til USA, 11% højere end i samme periode sidste år og følger de lagte planer. Salget i USA er som tidligere meddelt negativt påvirket af, at selskabets største direkte kunde i USA medio 2023 mistede sin væsentligste BactiQuant kunde.

BactiQuant udsender hermed trading statement Q1 2024. Kvartalsrapporteringen for Q1 2024 kan læses i sin helhed i det vedhæftede pdf-dokument.

Om BactiQuant A/S

Bactiquant has developed a technology that will revolutionize the monitoring of bacterial contamination levels in water and ensure optimum usage and handling of water around the world to the benefit of our customers and the sustainability of our planet. To show our environmental commitment, we have aligned our business with four of the UN's Sustainable Development Goals. We believe that Bactiquant will be the world leader within mobile and online surveillance of bacterial contamination levels, and we are already well on our way. Headquartered in Denmark and operating across five continents, our customers come from a wide range of industries such as public water utility companies, industries needing water cooling or requiring wastewater treatment, and aquaculture.
