

Odico secures million-order and dedicates production line to wind turbine segment.

12.9.2023 09:30:00 CEST | Odico A/S | Investor News

Odico are thrilled to announce a significant milestone in their journey as they proudly unveil a great achievement. Odico has recently received a million-order from one of their long-term, customers, with whom they have cultivated a strong and collaborative relationship. This collaboration has evolved from pilot projects into series production, marking a momentous step forward for Odico.

Investor News 04-2023

In light of this order and the continued interest Odico receive from the wind turbine segment, they have made a strategic decision. Odico will dedicate one of their production lines exclusively to cater to the demands of the wind turbine segment. This decision underscores their commitment to serving customers effectively and efficiently while further solidifying their presence in this segment.

At Odico, the core strengths lie in their innovative approach, a commitment to constant development in collaboration with customers, and cutting-edge digital and robotic solutions that guarantee unparalleled precision and minimal tolerances even in the most complex geometries.

“We are proud to embark on this exciting journey within the wind turbine segment. Our team is eager to commence production for this newest order, which will leverage the full capacity of our dedicated production line for the foreseeable future. This endeavor reflects our dedication to delivering high-quality solutions that meet the unique needs of the wind turbine segment.” says Alexander N. Andersen, CCO at Odico A/S.

In embracing this new chapter, Odico looks ahead with optimism and determination. As they embark on this exciting journey within the wind turbine segment, they do so with a profound sense of pride and responsibility.
