

Hydract A/S hires Dirk Dubiel as Head of Sales & Marketing

22.3.2022 08:00:00 CET | Hydract A/S | Investor News

Experienced sales professional to grow Hydract A/S business

Dirk Dubiel will take responsibility for Hydract's Sales & Marketing activities including the development of our Sales and Product Strategy. Dirk worked the last 9,5 years for GEA Group AG and headed for the last 2,5 years GEA's Business Line Aseptic Valves in Switzerland within the Business Unit Valves & Pumps.

Dirk is an experienced manager focused on ensuring continued profitable sales growth, leveraging modern sales processes and tools, and driving business development.

Dirk holds an MBA focused on Strategy Mgmt., Sales & Marketing, and a Diploma in Dairy Technology. He has a very strong background in our customer's liquid processing industry, especially in dairy processing where he has his operational foundation.

Peter Espersen emphasizes:

"I am pleased to announce the signing of Dirk Dubiel as Head of Sales and Marketing to our team. Dirk brings extensive sales and marketing experience as well as deep knowledge from the process equipment and engineering industry. It's exciting to add such an experienced sales professional to our team to grow our business. Dirk is delighted to support our customers to improve their sustainability and to rethink with them their liquid processing."

"It's a great pleasure for me to join this game-changing technology company. I'm excited to be the spearhead to solve our industry issue which I faced during my time in plant operation. It's wonderful taking the advanced HYDRaulic ACTuator technology to tackle multiple issues in liquid processing. I'm proud to actively contribute to improving sustainability.", Says Dirk Dubiel

We welcome Dirk and are looking forward to further growing our business together.

About Hydract A/S

About Hydract A/S

Hydract's mission is to develop process control valves alongside other relevant products and services that contribute significantly to the green transition in process industries, where hygienic production is required. At the same time Hydract aims to create significant competitive advantages for their customers. Hydract will spread the Hydract technology globally, driven by customer needs for solutions that improve their time-to-market, product waste, climate footprint, energy costs and food safety.
