Company Announcement No. 17-2024

Copenhagen, October 23, 2024

### **RISMA maintains current strategy “Sustainable growth” and renew unused credit facility.**

In Company Announcement no 13-2022 by August 30, 2022 RISMA announced a new strategy “Sustainable growth” in which we limited cash burn but committed ourselves to invest the increasing income from software licenses in additional growth.

After two years we have evaluated the result of that strategy. We are satisfied with the results and have decided that we still consider this to be the right strategy for RISMA.

RISMA has a strong financial position. RISMA has a Cash position of 10,1 MDKK per June 2024 (Half-Year Report 2024), no debt and has an unused credit facility of 12 MDKK. The credit facility was today prolonged until March 2028.

RISMA does presently not plan to make use of this credit facility. It does, however, reduce the need for a buffer in bank deposits and thereby allows RISMA to invest in more growth opportunities.

We are presently evaluating different additional growth opportunities, mainly in the Sales and Customer Success functions. We experience an increasing inflow of leads, especially from potential large customers. We therefore need more resources in sales and Customer Success, especially senior resources.
