Company Announcement No 3-2022

Copenhagen, March 28, 2022.

RISMA is proud to announce a new partnership with IT Relation A/S, part of the fast-growing group itm8. The partnership leverages RISMA's GRC suite consisting of eight GRC software solutions and also enables IT Relation to make customized solutions for their customers.

IT Relation is a significant player within IT Outsourcing services. The company has a strong position focusing on managed services and business solutions. With the continued interest and customer need to system support their work with governance, risk and compliance, it is only natural for IT Relation to expand their software portfolio with GRC software.

"I'm very happy to welcome IT Relation as a RISMA partner. IT Relation is a large and strong player in the IT service industry, and we are eager to support their broad IT offerings with our GRC software. We see many great potentials with IT Relation – both due to their large existing customer base, and also a joint effort in pursuing new customers for both companies", says Lars Nybro Munksgaard, CEO & Founder.

For RISMA, the partnership is a natural step in its strategic market growth, where partnerships play an important part of the growth trajectory in the Nordics in line with RISMA's listing on Nasdaq First North in March 2021. Both RISMA and IT Relation A/S expect to have a positive business impact in Q3 and Q4 2022 from the partnership.
