Company announcement no. 1/2022

#### **Changes to the Executive Management of Aquaporin**

Aquaporin A/S' CFO since 2016, Bo Karmark, has today decided to step down as CFO of Aquaporin. Bo will continue in his role and as a member of the executive management team until the end of July 2022 at the latest.

Matt Boczkowski, CEO, comments:

"I want to thank Bo Karmark for his contributions to Aquaporin A/S over the past five years and in our first half-year as a listed company on Nasdaq Copenhagen. Bo played an important role in Aquaporin's evolution to being a listed company and we wish him the best of luck in his future career."

## **About Aquaporin A/S**

Aquaporin is a water technology company headquartered in Denmark with operations in Denmark, Singapore and the United States. The aim of Aquaporin's technology is to contribute to a more sustainable world by focusing on encouraging responsible consumption of water. As a result, Aquaporin is committed to developing and providing cost-efficient, sustainable and environmentally responsible solutions to the growing need for access to clean drinking water, treating and reusing wastewater and improving concentration and separation performance. For this purpose, Aquaporin has developed a proprietary and patent-protected formulation for the protein aquaporin, which enables a high rejection rate of pollutants, high recovery rate of clean water and low energy consumption. Aquaporin's proprietary technology, Aquaporin Inside®, is based on Nobel Prize-winning research and used to clean and reuse water in our homes and in the industrial water and food and beverage industry. Aquaporin works with customers and partners around the globe to sustainably treat industrial wastewater, concentrate food and beverage products and enhance drinking water quality and accessibility.
