

AQUAPORIN

Aquaporin announces new Chief Financial Officer

2.5.2022 11:39:04 CEST | Aquaporin A/S | Changes board/management/auditors

Company announcement no. 5/2022

Changes to the Executive Management of Aquaporin

Aquaporin A/S ("Aquaporin" or the "Company") is very pleased to announce the appointment of Klaus Juhl Wulff as the Company's new CFO and member of the executive management with effect from 20 May, 2022.

Klaus Juhl Wulff brings significant experience in finance and accounting from his career, which includes positions as interim CFO in FLSmidth's cement division (2021), CFO of Cobham Satcom (2018-2021), division CFO in Berendsen Facility Division (2016-2018), CFO of Stena Recycling (2014-2016) and most recently independent consultant and advisor roles.

The appointment follows the resignation of Bo Karmark, Aquaporin's CFO since 2015, as announced in company announcement no. 1/2022 on 17 January 2022.

Matt Boczkowski, CEO, comments:

"The Board of Directors and I are very excited to welcome Klaus Juhl Wulff as Aquaporin's new CFO as we pursue Aquaporin's growth journey to purify and clean water by using the Aquaporin Inside® technology in industries, homes, and even in space. Klaus Juhl Wulff brings extensive experience from several corporate finance functions as well as a strong strategic mindset. I have no doubts that he will be a valuable member of the team and a significant addition to Aquaporin's executive management."

Bo Karmark will remain in office until the end of May 2022 and ensure a successful transition to Klaus Juhl Wulff.

About Aquaporin A/S

Aquaporin is an innovative water technology company dedicated to natural water treatment with operations in Denmark (HQ), Singapore, and the United States. Aquaporin works to preserve the Earth's most valuable resource – water – by combining advanced bioengineering, open innovation, and natural aquaporins – nature's own water purifiers – which they embed into water purification membranes. Their proprietary technology, Aquaporin Inside®, is based on Nobel Prize-winning research and used to clean and reuse water in industries, in our homes, and even by NASA in space. Aquaporin works with customers and partners around the globe to sustainably treat industrial wastewater, concentrate food & beverage products, and enhance drinking water quality and accessibility.
