About Aquaporin A/S

Aquaporin is an innovative water technology company dedicated to natural water treatment with operations in Denmark (HQ), Singapore, Turkey, China, and the United States. Aquaporin works to preserve the Earth's most valuable resource – water – by combining advanced bioengineering, membrane chemistry, open innovation, and natural aquaporins – nature's own water purifiers – which they embed into water purification membranes. Their proprietary technology, Aquaporin Inside®, is based on Nobel Prize-winning research and used to clean and reuse water in industries, in our homes, and even by NASA in space. Aquaporin works with customers and partners around the globe to sustainably treat industrial wastewater, concentrate food & beverage products, and enhance drinking water quality and accessibility.
