

Q-Interline A/S receives order from AAK Sweden

12.10.2026 11:38:55 CEST | Q-Interline A/S | Investor News

Q-Interline has received an order for a Quant instrument from AAK Sweden, a global key account within the oils and fats industry.

The order includes a Quant instrument equipped with a heated Vial Sampler and is a replacement of an existing laboratory analyzer. The new Quant instrument will be integrated seamlessly into AAK's existing analytical setup.

The Quant instrument delivers results for key quality parameters in approximately 30 seconds, supporting efficient quality control and monitoring of production samples.

Delivery is scheduled for October/November 2026.

VP Global Sales Per Sand comments:

"AAK Sweden's decision to replace an existing Q-Interline instrument with a new Quant system reflects the value our technology delivers and confirms the strong, long-term partnership between AAK and Q-Interline. We are proud to continue supporting AAK with fast and reliable analytical solutions."

This repeat order highlights the continued trust in Q-Interline's technology and strengthens the long-standing partnership between the two companies.

About Q-Interline A/S

Q-Interline is a technology company that develops high-tech analytical solutions for optimising process efficiency and product quality, based on infrared spectroscopy and correct sampling techniques.

The company develops both its own front-end software solutions and software for automated cloud-based monitoring of analytical instruments and mathematical calibration models.

Q-Interline is among the leading suppliers of analytical equipment to the dairy industry in Scandinavia and has delivered analytical systems to customers in 53 countries worldwide across the food and dairy industries, agriculture, pharmaceutical manufacturing, and

the chemical industry.

For more than 29 years, the company has accumulated extensive industry expertise and developed innovative patented solutions for food analysis. Today, Q-Interline offers a competitive product portfolio built on leading-edge technology.

Through its solutions, Q-Interline contributes to the sustainable use of raw materials in food production while helping to ensure that the quality of produced food supports the health and well-being of both humans and animals.
