*Danfoss engineers solutions that increase machine productivity, reduce emissions, lower energy consumption, and enable electrification. Our solutions are used in such areas as refrigeration, air conditioning, heating, power conversion, motor control, industrial machinery, automotive, marine, and off- and on-highway equipment. We also provide solutions for renewable energy, such as solar and wind power, as well as district-energy infrastructure for cities.*

*We deliver value to our customers as a global technology partner with global leading positions, deep application knowledge and sustainable innovation in our core businesses:*

- *Danfoss Power Solutions – Full solutions capabilities in mobile and industrial hydraulics, fluid conveyance, electrification and software*
- *Danfoss Climate Solutions – Sustainable heating and cooling solutions for buildings, cold chains, industry and infrastructure*
- *Danfoss Drives – Clean-energy solutions such as AC drives, power semiconductor modules, and electrification in automotive and various industries*

*Our innovative engineering dates back to 1933. Danfoss is family-owned, employing more than 40,000 people, serving customers in more than 100 countries through a global footprint of 95 factories.*
