10.7.2024 19:33:41 CEST | Ambu A/S | Inside information

Today, Ambu announces preliminary Q3 2023/24 results and upgrades its expectations for the full financial year 2023/24. Due to better-than-expected performance in Q3, Ambu increases its financial outlook for organic revenue growth to 12-14% (previously 10-12%) and for EBIT margin before special items to 11-13% (previously 10-12%). The better-than-expected performance is driven by continued strong growth in Endoscopy Solutions, solid growth in Anaesthesia & Patient Monitoring and improved operational leverage, in line with Ambu's transformation plan.

In addition, the company raises its free cash flow expectations to DKK +450m (previously DKK +370m).
